BSB No. 010890

Benefits

PITA coordinates meetings/seminars, workshop and training for its members in the region and maintains a forum for regional networking and international collaboration providing opportunities and development for all its members throughout the region.

Attendance to these forums and meetings is a very cost effective means to meet all key people in communications from the various islands and suppliers.

PITA Activities

PITA has two main meetings organised for members during the year. The first meeting is held prior to the start of the Pacific Telecommunications Council (PTC) Annual Conference held every January in Honolulu, Hawaii. PITA also has its Annual General Meeting months before June (start of its financial year).

Where requested by members or when the opportunity arises, other PITA events/activities such as projects, workshops, conferences and seminar, training, tradeshows and exhibitions are planned outside these meetings and can be held at different times of the year. PITA supports joint events with other organisations in the promotion of telecommunications development in the Pacific and for cost savings, events can be held back to back.

Attendance to any PITA event is open to all members with minimum or no registration fee. PITA does not provide any fellowship for participation at any event.
