**BSB No.** 010890

IMPORTANT: All payments made are to include F\$15 for bank charges deductible from amount received

## Benefits

1. Meet and network with peers and key players of telecommunications in the Pacific, to:
  - a. Establish new relations and prospects
  - b. Exchange and share experience
  - c. Create new opportunities
  - d. Work together in addressing common needs and issues
  - e. Present a talk or facilitate workshop -seminar at the PITA events
2. Participate in enhancing and developing telecommunications in the Pacific

## PITA Activities

PITA coordinates technical and business meetings/seminars and forums, and hold workshop and training for its members in the Pacific region. PITA also maintains a forum

for regional networking and international collaboration for development for all its members throughout the region.

PITA meetings and events provide very cost effective opportunities to promote new ideas, new solutions and understanding regional issues and needs, and also to meet all key people in communications from the various islands, communication agencies and suppliers.

PITA has two main meetings organised for members during the year. The first meeting is held prior to the start of the Pacific Telecommunications Council (PTC) Annual Conference held every January in Honolulu, Hawaii. PITA also has its Annual General Meeting months before June (start of its financial year).

Where requested by members or when the opportunity arises, other PITA events/activities such as projects, workshops, conferences and seminar, training, tradeshows and exhibitions are planned outside these meetings and can be held at different times of the year. PITA supports joint events with other organisations in the promotion of telecommunications development in the Pacific and for cost savings, events can be held back to back.

Attendance to any PITA event is open to all members with minimum or no registration fee.

### **Fellowship**

PITA does not provide any fellowship for participation at any event.
